

WITH YOUR HELP, HER FIRST VISIT WILL LEAD TO MANY OTHER FIRSTS

Her baby's first smile...first steps...first words...first birthday...first day of kindergarten...first day of college...

The Reality

Since abortion clinics have the financial resources to market themselves as the leaders in women's reproductive health care, a woman facing an unexpected pregnancy is very likely to find an abortion clinic; if her first visit is to an abortion clinic, the likelihood of her walking out of that clinic still pregnant is nearly non-existent.

HOWEVER if her *first visit* is to one of our centers, 60% of the time her next visit will be to a physician for pre-natal care.

Due to the financial support of our partners over this past year, we provided nearly 300 *first visits* to pregnant women at risk for abortion, resulting in 172 babies born or due soon! We estimate that the cost of providing a pregnant woman with a free medical appointment including a lab-quality pregnancy test, ultrasound, and a medical professional consultation to be \$710. Her visit also includes an opportunity to discuss her unique situation with an advocate and to hear the gospel message. A *sample invoice* is below - every patient receives an invoice showing all services are made possible because of our generous supporters.

Year-end gifts are crucial to the impact we can make for Life. Will you help us start the year with the resources to provide our first 200 women with a FREE LIFE-SAVING FIRST VISIT?

"You guys definitely made me feel like I had a safe place and people that I could trust. I feel like it's a second family...It helped me feel better about the pregnancy." Ashley

Thank you for allowing us to serve you today.			

Over 12,000 abortions in Massachusetts occur before 8 weeks of pregnancy.

Too often women are making a decision out of fear and before they even have time to process their situation.

A first visit provides a woman with crucial information that allows her to make an educated and informed decision.

Together we can continue to help women choose LIFE.

Goal by 12/31/18: \$142,000...200 First Visits at \$710
