

# 2021 ANNUAL REPORT

## PATIENT STORY

Clara was scared. As a college student, she had lots of plans for her life, so many things she wanted to do. As she looked down at the positive pregnancy test in her hand, this had certainly not been part of her plans.

Being far away from home for school, Clara did not know who to turn to. However, with a quick search on the internet, she found Your Options Medical and booked an appointment to learn more about her options.

Once at our center, Clara shared with her advocate that she was under so much pressure. She knew neither her family nor her partner, Aiden's family would be supportive of this pregnancy. On top of the lack of familial support, they had no idea how they would financially support a baby.

With so many obstacles and challenges that would make raising a child seemingly impossible, a part of her was considering abortion. Yet at the same time, she and Aiden both identified as Christians, which made her pause before making a final decision on abortion.

Unsure of what she was going to do, Clara scheduled an ultrasound appointment and a few days later, returned with Aiden accompanying her. During the ultrasound, they were quiet as they looked at the ultrasound monitor. They did not express much and were still undecided when they left our center that day.

However, the very next day, her advocate received a message from Clara: "We are keeping the baby! After talking about terminating, I just don't think I would be able to do it." After seeing their baby on the ultrasound, they decided to go through with their pregnancy. Though their families were still not fully supportive of them, they knew they could do this together.

We are thrilled to announce that Clara and Aiden welcomed their baby boy, Daniel, into the world and are very excited new parents!

Clara shared with us: "I just wanted to say thank you for helping us make the decision to keep our little one. We are so overly blessed and obsessed with our baby!"

Because of you, we were able to offer this young couple the support and encouragement they needed to choose life for their baby. You make beautiful stories like this possible!

# FROM THE EXECUTIVE DIRECTOR

*Teresa Larkin*

Many of you can probably agree that 2021 was a year that was unexpected. We thought the COVID-19 pandemic would be over and our lives would return to normal. Churches, schools, and businesses would be fully opened and flourishing once again; in-person medical appointments would be readily available. But our expectations were halted by the reality that many obstacles still prevented a return to normalcy.

An unexpected pregnancy disrupts the routines of life for mothers and fathers. Anxiety, fear, and even irritation are all reactions to the unexpected. Our human response is often to find the easiest, quickest way to return to our normal. At Your Options Medical, our mission is to offer mothers facing an unexpected pregnancy the medical information and support they need to reject the idea that an abortion is the way to return to normalcy.

In 2021, telehealth became the common way medical services were provided, and the abortion industry capitalized on this new option. Abortion businesses in Massachusetts began to offer the abortion pill to mothers without the need for an in-person appointment. The expediency of this option feeds right into the panic that a mother facing an unexpected pregnancy experiences. Given the opportunity to have an abortion in the privacy of your own home, thousands of women here in our communities are choosing to forego quality medical care and consultation in their quest to return to life as they know it. Without Your Options Medical and other life-affirming clinics, there is no option for women to receive an ultrasound and have the opportunity to speak with someone in person about their situation. Having served in this ministry for 23 years, I can honestly say that I believe our services are needed now more than ever before.

Standing against the culture can be exhausting. The support and encouragement we receive from our donors inspires us to keep fighting for the sanctity of life and remain standing on God's truth.

## **FROM OUR BOARD CHAIRMAN, PAUL LINEHAN**

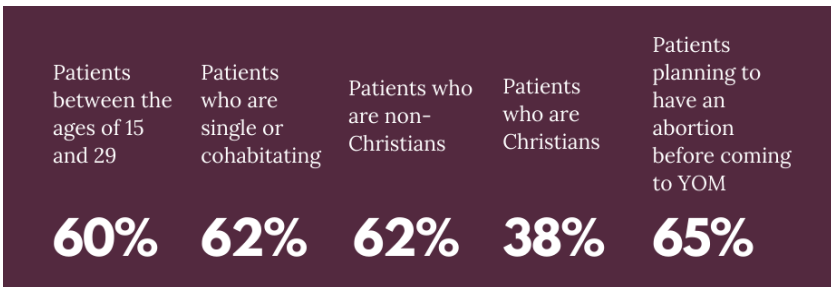

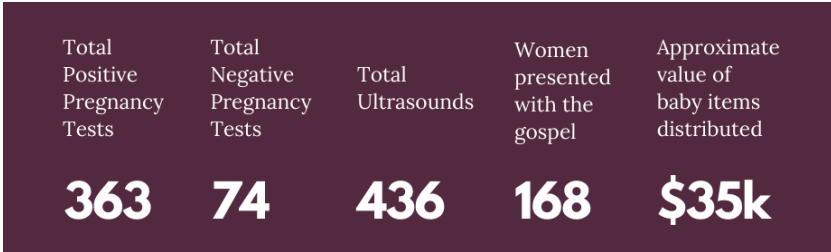

It is with sincere gratitude that I write to you, our faithful partners, who support the ministry of Your Options Medical through your prayers and finances. We know that the miracle of God's creation cannot be denied when we see the precious life of a preborn baby through ultrasound. The impact in changing hearts and minds to choose life is truly amazing.

As many of you know, 2021 was an auspicious year. Despite the complications of COVID, God led us to open a new medical center in Brookline, a location uniquely situated a mile away from the two biggest abortion providers in Massachusetts (not to mention another abortion provider on the very floor of our new center). We trusted God would provide the resources needed and He did — through YOU! We are excited to see this center grow and save hundreds of lives in the coming years.

With your continued partnership, we know that God will continue to work through Your Options Medical in revealing the truth of the miracle of life — for His honor and glory!

# PATIENT STATISTICS

*Our mission is to reach a pregnant woman who is seeking or considering abortion and to provide her with free, life-affirming care and support to empower her to choose life.*
